## Please leave us a testimonial and include your name.

- This was my first AEG Stakeholder Challenge and I really appreciated the level of collaborative innovation that occurred to address and come up with solutions to the presented obstacle. It was impressive and inspiring to see how many great suggestions were formed so quickly and with such positive intent. -Honnie Leinartas, Senior Energy Specialist, Elevate

## Any suggestions?

- Not so much a suggestion as a comment. As this was my first involvement with the Stakeholder Challenge, I didn't really know what to expect but I feel as though I was able to get up to speed through the context of the conversations of both of the sessions.
