## SELECTED 12 MONTH SOLUTION:

### Community Portal Pilot

- M1:** Recruit CBO as partner
- M2:** Define transportation issue and data needs; engage community
- M3:** Compile, synthesize, and advocate for access to data
- M4:** Develop data portal or product that meets partner needs

# TASK FORCE UPDATE - 22Q4 Clean Transportation

## 12-MONTH SOLUTION:

Work with Community Based Organizations (CBO) to develop a data portal to improve access to low carbon infrastructure that can help meet key transportation needs in targeted disadvantaged communities in our region”

## CURRENT MILESTONE:

(#3) Compile, synthesize, and advocate for access to data

## NEXT MILESTONE:

Develop data portal or product that meets partner needs

## UPDATES:

- Partnering with Billy Davis (Bronzeville Comm. Dev. Partners.) and Gary Cuneen (Seven Generations Ahead) to target communities of Bronzeville and Maywood
- Reviewed existing funding opportunities to generate a list of data types needed for communities to submit funding applications for clean transportation initiatives
- The team has identified and hyperlinked sources to meet these needs
- Will use dataset to support applications to ComEd’s Beneficial Electrification plan
- Next step to develop a data portal; we are seeking help from other AEG participants
