AEG Chicago Clean Ports Survey (2/10)

009

Are you willing to provide a letter of support by May 10th? If yes, write your name.

AEG Chicago Clean Ports Survey (3/10)

006

Are you willing to provide a scope of work (w. budget) by May 10th for your proposed contribution? If yes, write your name and contribution type.

- Need more information first. Detailed maps, load requirements, fleet size, battery storage requirement for solar, scopes for both ports.
- Yes. Cosmo Skotniski
- Antonio L Krulas: Technical & grant applications
- I'm not sure what this would entail.
- I can't make that commitment on behalf of the Company this evening
- Yes

AEG Chicago Clean Ports Survey (4/10)

007

Are you willing to be part of the support team for the community meetings? If yes, write your name.

Schedule permitting, yes, Thomas Carey

McDonnell **Burns** Perez JLL British
5 Yes: Deb Dynako

Yes - Larry Lloyd

Yes
Jorge TBD **ComEd** Salinas
Greg Consulate

AEG Chicago Clean Ports Survey (5/10)

006

Are you willing to be a workforce development partner? If yes, write your name.

Antonio L Krulas

No one at this table has the resources to support this.

Yes: if we can find a role for us to play. Deb Dynako

Yes. Cosmo Skotniski

Michael Cappiello

AEG Chicago Clean Ports Survey (6/10)

009

Are you willing to refer a workforce development partner? If yes, write the organization + your name.

(1/2)

- Yes. 548 Capital. Renée Skeete
- Have you thought about partnerships with the City Colleges of Chicago, specifically Olive Harvey College. OHC is the TDL (Transportation, Distribution and Logistics) school and was planning to build a training facility on campus. OHC is in close proximity to the IL Port.
- There are training programs for hydrogen infrastructure development from the UK that could potentially be leveraged for workforce training here - Mike Cappiello
- There are many potential strategic partners in this space, agree in principal. Cosmo Skotniski
- Calumet Area Industrial Commission , call Ted Stalnos
- Crowley , Antonio L Krulas
- Yes: JPI Group

AEG Chicago Clean Ports Survey (6/10)

009

Are you willing to refer a workforce development partner? If yes, write the organization + your name.

(2/2)

- DCEO Workforce Development
Therese McMahon
- N/A

AEG Chicago Clean Ports Survey (7/10)

006

Are you willing to be a supporting sponsor/partner (\$5k) by April 30th? If yes, write your name or organization.

Company
commitment
behalf

**Yes - Larry Lloyd,
CPKC**

authority evening make TBD
Need to ask leadership.

AEG Chicago Clean Ports Survey (8/10)

006

Are you willing to provide the equivalent work (min \$5k) towards writing the grant? If yes, write your name + organization.

- JLL can provide support. Keep the team engaged, possibly.
- 2IM Group can provide equivalent work towards writing the grant.
- Yes - Cosmo Skotniski
- Antonio L Krulas , Crowley
- Perhaps. I don't have authority to make that commitment on behalf of the Company this evening
- Yes, Larry Lloyd - CPKC

AEG Chicago Clean Ports Survey (9/10)

009

What other important considerations do we need to discuss?

(1/2)

- Community benefits- including public health, individual health, jobs, economic benefits. Change management for all stakeholders - community, businesses, government, residents, county, state, Tri-State area, etc.
- What are the connections with the CMAP Master Plan? How can community engagement efforts use that plan as a foundation.
- Drill down required for this question
- What is the land demand of electrification, hydrogen production and storage, refueling stations, etc? (How) Will Bensenville and IIPD be interconnected? How will hydrogen be transported to and between the two? If there are interconnects, what equipment/vehicles are needed for this transformation?
- Land availability , power loads, Identifying

AEG Chicago Clean Ports Survey (9/10)

009

What other important considerations do we need to discuss?

(2/2)

of electrification potential of tenants in terminals , willingness to electrify, end of life use of equipment.

- Need to understand the jobs need better. What opportunities is this project creating?
- Transportation of Hydrogen between IIPD and Bensenville. Dedicated transport ?
- Shelf life of hydrogen What are the storage needs for hydrogen

IIPD should prioritize electrification at the port itself - solar panels on warehouses, charging infrastructure, shore power etc. But include hydrogen storage/refueling on level that starts small but with opportunity to scale up

- NIMBYism.

AEG Chicago Clean Ports Survey (10/10)

009

What other key stakeholders need to be engaged?

East
corporations consulted
emissions owned/leased End users
strategies fleet TBD
Tenants party truck port district
airlines potentially remove equipment
large logistics adoption
Ohare electrify develop
