Popular questions

 **Anonymous** 0  27 

Marcus C. Evans, Illinois 101st G.A.; We must first address public transportation access, safety and the conundrum.

 **Anonymous** 0  24 

Kate Tomford, Chicago Transit Authority; We must first address the affordability of charging infrastructure for electric vehicles.

 **Table 5** 0  22 

Increase 1 stop's ridership. Q1: review data for 10 "most challenged" bus or train stop using CTA and rideshare data, pick one, Q2: engage community leaders At that stop, convene discussions on access and marketing solutions, Q3: present solutions to CTA, such as last Mile integration using Via.

 **Table 2** 0  13 

Equitable Clean Access to Transit (eCAT) - Accessibility pilot w/clean microtransit & subsidized student fares in 33rd district M1: Info gathering M2: identify target audience & metrics M3: pilot parameters M4: RFP

 **Anonymous** 0  10 

Table 2: lack of charging infrastructure requires funding, and the city's fiscal problems will result in not being able to afford such a large purchase. Plus, there will need to be more than the 7 stations they currently have.

016

In one word, how would you describe your experience?

Post Event Survey (3/4)

006

Testimonial? (pls include your name) (1/2)

- These gatherings provide insights into the current issues and challenges facing a big city like Chicago. Through the presentations and discussion opportunities for solutions and business partnerships are uncovered which add value to all stakeholders, moving us closer to our decarbonization/environmental goals. Matan Meital
- Alex Seydel - thought provoking, well-rounded and varied viewpoints, love the problem solving model and follow up/through. Folks that attend are buying in!
- Antonio Lopez
- Learned, met people with whom I can collaborate, and contributed to solutions Susan Mudd
- This event was inclusive and with a good level of interaction. The challenge

activities were helpful with driving discussions and networking with others in the industry.

- Very dynamic session, is great to have all these diverse minds together. Manuel Fernández

Post Event Survey (4/4)

Any suggestions? (1/2)

- Sharing all attendees contact information to facilitate networking and follow up Discussion
- More general networking time (although obviously event is time constrained).
- A little less talking from presenters (limit slides or time), more problem solving/collaboration time
- Continue the dynamic host locations
- Keep tables on task to the issue!
- Larger font on display board—can't read it now as too small
- New experience for me. Always difficult to find the time to do this work. I can give it my all during the morning, it's tough to do too much outside of this work. I liked the networking and meeting people.
- More networking time in between program (not just at end and beginning)
- Allow minor

Post Event Survey (4/4)

modifications/clarifications of
problem statements.

- Keep the program moving,
especially at dinner, so there's
more time for networking
