Green Button Connect Offerings

Smart Meter Connected Devices

CUSTOMER SOLAR OPTIONS

Private Solar Energy System

Community Solar

THIRD PARTY DEVELOPERS

100+ Approved Vendors through the Illinois Power Agency

300+ Certified Distributed Generation Installers through the Illinois Commerce Commission

A critical problem related to Smart Buildings & Grid Modernization that needs a collaborative, near-term solution is:

For sustainable impact, smart buildings and grid modernization require a coherent ecosystem of – and better value stacking across – currently disparate EE, solar, and DR options for customers.
